

*Time to start thinking about a field trip in early spring...
Maple syrup season is just around the corner!*

Curriculum-Based Maple Sugar Bush Tours for Early Years, Grades 1, 2 and 3

**Your class will enjoy our interactive, hands-on learning experience while you
complete specific expectations of the Ontario curriculum
(See other side for curriculum connections)**

*Our program covers a range of both overall and specific expectations from the strands in Science and Technology,
Mathematics, Social Studies, Language, Personal and Social Development.*

- Identify a Sugar Maple Tree
- “Tap” (hang a bucket on a Maple tree) – each child (instructor assisted) will use the ‘pioneer style’ brace and bit hand drill (a non-powered drill to drill the hole into the tree), attach the spile and hang the bucket
- Collect maple sap from the trees with their own sap bucket
- Understand the basic concept of making maple syrup in our Sugar Shack at the evaporator (how the maple syrup making process works)
- History of Maple Syrup
- Taste the freshly made maple syrup
- Enjoy a tractor drawn hay ride through our sugar bush
- Compare and contrast tools and technologies, equipment and methods of processing maple syrup used in past and present
- Nature and ecology appreciation
- See, smell, hear, touch and taste

All stations allow the students an up-close hands-on experience.

Our program is dynamic, age appropriate and adaptable to your specific group needs.

Program Price: \$10.00 per student (no charge for teachers or adults) (HST included)

Program Length: 1.5 – 2 hour program

Add another of our programs to make an exciting full-day: \$20.00 per student

Dates available for Sugar Bush Program: March 1 through to April 15

Stay for lunch and enjoy our delicious pancakes with our real maple syrup

Meal Price (Option): \$5.00 per person (HST included)
